

exam you were too ill to be expected to function reasonably. Please note that although the Student Health Service will provide such validations for Final exams, they will not provide these for exams during term. Therefore in the event of a missed exam your medical excuse must be obtained from a private physician. If you should have a personal or psychological trauma and miss an examination, a written letter of explanation from your psychiatrist, psychologist, or student counselor must accompany such an excuse. A letter from the attending physician or clergy must validate exams missed due to a death in the family. In the absence of such written verification you will not be excused. All medical excuses must be personally presented to me as soon as you are able to return to class for a make up to be scheduled.

4. Class Participation (20%)

Based on quality, not quantity. That said, if you don't participate, you will get a zero. Really.

Psychology Department's Position on Academic Misconduct

Cheating, plagiarism, and other forms of academic misconduct are very serious concerns of the University. In all cases of suspected academic misconduct, the parties involved will be pursued to the fullest extent dictated by the guidelines of the University. Strong evidence of cheating or plagiarism may result in a zero credit for the work in question. According to the University Act (section 61), the President of UBC has the right to impose harsher penalties including (but not limited to) a failing grade for the course, suspension from the University, cancellation of scholarships, or a notation added to a student's transcript.

All graded work in this course, unless otherwise specified, is to be original work done independently by individuals. If you have any questions as to whether or not what you are doing is even a borderline case of academic misconduct, please consult your instructor. For details on pertinent University policies and procedures, please see <http://www.library.ubc.ca/clc/airc.html>.

Further information about academic regulations, course withdrawal dates and credits can be found in the University Calendar. You are encouraged to read this material. If you run into trouble and need information about studying, preparing for exams, note taking or time management, free workshops and advice are available from the Student Resources Centre, which can be reached through the School and College Liaison Office at 822-4319.
